

Russian Blue: Elegant Mystery

Distinctive Appearance

Russian Blues are elegant cats with silver-blue coats that shimmer in the light. Their bright green eyes stand out against their grey faces. Their dense double coats are incredibly soft and stand out from the body, giving them a plush appearance.

Quiet Companions

These reserved cats take time to warm up to strangers but are devoted to their families. They're quiet, gentle, and sensitive to their owners' moods. Russian Blues often follow their favorite person from room to room, supervising their activities.

Playful Side

Despite their dignified appearance, Russian Blues have a playful streak. They enjoy interactive toys and games, and can learn tricks. They're known for their love of fetch and their enjoyment of climbing to high places to survey their domain.

Easy Care

Russian Blues are relatively low-maintenance cats. Their short, dense coats need only weekly brushing. They're generally healthy cats with no breed-specific health issues. They're fastidious about their litter boxes and prefer them spotlessly clean.
